Re: Final Review of APM 430, Visiting Scholars

The Committee on Research reviewed the revised Visiting Scholars policy and agrees that it is improved over the previous version. However, the committee noticed one issue. The following section would sound better if stated "430-10 Criteria for Appointment. Visitors must possess a terminal degree *or have experience* appropriate to their status, or may be an undergraduate student. Their appointment must serve an academic purpose for the unit in which they are visiting." (Italic wording added). There are a variety of appropriate candidates for the Visiting Scholar title (authors, MacArthur Fellows) who may not have an appropriate "terminal degree".
