Riverside Division

From: J. Morse, Vice Chair   
Committee on Library, Information Technology and Scholarly Communication

Re: Proposal for a Masters in Public Policy

The Committee on Library, Information Technology and Scholarly Communication has reviewed the proposal for the creation of a Masters in Public Policy. The proposed establishment of the degree, as listed in section 6 of the report, does not place any additional strain on existing library resources. As such, the Committee does not have any significant concerns and unanimously approves the proposal.
