Subject: Committee on Education Policy, Retention of Graded Materials, February 24, 2015

The Graduate School of Education Executive Committee was asked by the chair to review the document "Policy on Retention of Graded Materials." The Executive committee approves of the policy. There was only one change recommended. In the first full paragraph, first sentence, the use of plural for "summer session" to read "summer sessions," given that UCR has multiple summer sessions, is suggested.
