Re: Campus Review. Campus Five-Year Planning Perspectives

The Committee on Faculty Welfare met on April 19, 2016 to discuss the campus five-year planning perspectives and found the list of proposed programs for establishment, transfer, consolidation, discontinuance and disestablishment to be reasonable. However, the Committee felt the intent of the suggested item listed as “Renaming or establishing Cell Biology and Neuroscience” was not clear as the Cell Biology and Neuroscience department has already been established and is a functioning department. By a vote of +4-0-0, the Committee on Faculty Welfare approves of the proposed document with a recommendation to revise or clarify this item.
