Re: Campus Review: Proposed Changes to Regulation R1.6.1

The proposed change to regulation R1.6.1 was sent to the members of the CNAS Executive Committee for review on April 30. A clear majority of the members responded, and in every case, they supported the change. The present regulation leaves a subset of students trying to complete a course sequence with dependent prerequisites, those who receive a C- in an early course, with no means of continuing in the curriculum, while this is not an issue for students who receive a lower grade. This change addresses this injustice.

Yours sincerely,

A handwritten signature in cursive script that reads "Ward Beyermann".

Ward Beyermann, Chair
