Committee on Educational Policy

Re: Proposed Revisions to Appendix 7

The Committee on Educational Policy reviewed the proposed revisions to Appendix 7 at their December 1, 2017 meeting and were generally supportive of the proposed changes. The Committee did note concern that the proposed changes were not clear and if information from the present column is reflected in the proposed changes. The Committee requests that the proposal be updated/annotated with a more thorough justification to identify and address each change that was made.
