Re: Campus Review: UCR 5-Year Planning Perspectives 2018-2023

The UCR 5-Year Planning Perspectives 2018-2023 was sent to the members of the CNAS Executive Committee for review on April 30. The response was limited; however, there were two issues associated with the document that may be in error. First, the joint Biophysics program, which is listed as BS degree, is actually an MS/Ph.D. program. Professor Russ Hille is the lead on this and should be consulted. Second, there are discussions about establishing a BS degree in Physical Science Education. This would be a joint program with GSOE and CNAS. Clarification on this can be obtained from either Dean Thomas Smith or Divisional Dean Umar Mohideen. Otherwise, we found no other problems with this document.

Yours sincerely,

A handwritten signature in cursive script that reads "Ward Beyermann".

Ward Beyermann, Chair
CNAS Executive Committee
