Proposed:

Sociology Department Requirements (52 units).

The Sociology major requires satisfactory completion of Sociology 001 with a grade of ‘C’ or better and satisfactory completion of one additional lower-division Sociology course with a grade of ‘C’ or better. Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. No change

2. No change

   a) No change

   b) No change

   c) No change

   d) An additional 16 elective units in Sociology (No more than 4 units may be in any
      combination of SOC 190, SOC 197, SOC 198G, SOC 198-I.)

Effective: Immediately upon approval

Justification: Sociology 1 and one additional lower-division Sociology course are currently required to graduate in the major. We are instituting a minimum grade of ‘C’ in these two courses to ensure a minimal level of competence to successfully complete upper-division work in Sociology. Requiring students to pass two lower-division Sociology courses with a grade of ‘C’ or better ensures that they will have a basic understanding of sociological concepts before they officially become majors. Successful completion of these two courses before admittance to the major will help avoid problems associated with poorly prepared students electing the major and then performing poorly in upper-division courses.
