To be adopted:

Proposed Change in the Minor Regulations for the College of Engineering

Present

ENR3.3 Academic Minors

A minor shall consist of not fewer than 20 nor more than 28 units of organized upper division courses. No more than 4 (four) units of 190-199 courses may be used in fulfilling the upper division unit requirement for a minor.

ENR3.3 Academic Minors

A minor shall consist of not fewer than 20 nor more than 28 units of organized upper division courses. No more than 4 (four) units of 190-199 courses may be used in fulfilling the upper division unit requirement for a minor. Overlap may occur between the upper-division course requirements of the major and the minor only to the extent permitted by the department, program, or interdisciplinary committee offering the minor, or the college of the minor.

Justification

This provides the College of Engineering a way to restrict the amount of duplication that can exist between a major and minor, similar to that now in effect for the other two undergraduate colleges.

Approved by the College of Engineering Executive Committee on 4/4/01.
Approved by the College of Engineering Faculty on 4/10/01.
Approved by the Committee on Educational Policy on 4/19/01.
The Committee on Rules and Jurisdiction finds the wording consistent with the Code of the Academic Senate: 4/30/01.
