To be adopted: Proposed Changes in Course Requirement for the Bachelor of Arts Degree in Mathematics

Present:

Bachelor of Arts in Mathematics:

1. ...

2. Four (4) units of either one course in Computer Science or one upper-division course in Statistics

3. ...

Proposed:

Bachelor of Arts in Mathematics:

1. No Change

2. Four (4) units of either CS 10 or one upper-division course in Statistics

3. No Change

Justification:
The change in the requirements for the Bachelor of Arts degree in mathematics is to specify that CS 10 is the appropriate computer science course that will meet CNAS breadth requirements in Mathematics, Statistics, or Computer Science. Courses below CS 10 are not suitable for math majors since these courses are intended for beginner computer users.
