## Justification

Update the major based on changes in Political Science course offerings. One of the following is required to fulfill the lower-division requirement in the Comparative area: POSC 015, POSC 016, or POSC 017. We no longer have the faculty to teach POSC 156 and, therefore, deleting it. The other courses are approved courses that need to be distributed in their respective areas: U.S., Comparative, International Relations, and Theory.

## Effective
