To be received and placed on file:

According to the statistics of the Basic Writing Office, a total of 1633 entering students were held for the Subject A requirement upon entrance in Fall, 2002. Many incoming students benefited from our outreach to juniors in twenty feeder high schools, and so were more likely to pass the Systemwide Diagnostic exam administered in May of their senior year. Several hundred UCR-bound students who were still held for the requirement at the end of their senior year of high school managed to pass it at the end of UCR summer school, before they enrolled at UCR.

Of the students still held at the beginning of Fall Quarter, only 151 students did not fulfill the Subject A requirement after three quarters. One third of these students went on to pass the requirement in UCR’s summer school. Several dozen were allowed to enroll this fall, under their associate deans’ supervision, for a fourth quarter of preparation to pass the requirement.

The overall success rate for UCR freshmen last year continued to be very high: 95% of all UCR freshmen had passed by the end of spring, and approximately 97% by the end of August.
