JUSTIFICATION FOR CHANGES

The Department is resurrecting the upper-division undergraduate courses Introduction to Insect Morphology (ENTM 106) and Introduction to Taxonomy Laboratory (ENTM 112L). These courses are more appropriate requirements for the Entomology B.S. and B.A. degrees than BIOL 112/BPSC 112/ENTM 112.

Moving BIOL 112/BPSC 112/ENTM 112 out of the required upper-division course list allows it to be used as an elective for the major. This is of benefit since there are a limited upper-division electives available.
