The Committee on Courses has completely revised the "General Rules and Policies Governing Courses of Instruction" which follow [page numbering and breaks removed for agenda]:

ACADEMIC SENATE

COMMITTEE ON COURSES

RIVERSIDE DIVISION

UNIVERSITY OF CALIFORNIA - RIVERSIDE

GENERAL RULES AND POLICIES GOVERNING COURSES OF INSTRUCTION

(Revised February 2005)

The Committee on Courses is established by Bylaw 8.10.1 of the Riverside Division of the Academic Senate. The Committee consists of a minimum of seven members selected by the Committee on Committees. Normally at least one member of the Courses Committee represents each of the areas of humanities, social sciences, biological sciences, physical sciences, and each of the colleges/schools. Two student members serve as non-voting members, one being nominated by the Graduate Student Council and the other by the Student Senate. One member of the Committee on Courses is also a member of the Committee on Educational Policy.

Bylaw 8.10.2 states: “Subject to the provision of 8.10.3, the Committee has authority for final approval of all courses of the Riverside Division, except those courses in University Extension above the 200 series, giving due consideration to the findings of the Graduate Council, the Committee on University Extension, executive committees of the colleges and schools, and officers at Riverside. The committee will report its actions at the next regular meeting of the Division.”

All courses of instruction that are offered for credit, including University Extension, must be approved by the Committee on Courses. Any new course, change in existing course, deletion of course, restoration of a course previously offered, or other action must be submitted to the Committee via the Course Request and Maintenance System (CRAMS). Once the course proposal is correctly submitted via CRAMS to the Courses Office, it will be automatically routed to the next review or approval level; upon review or approval, it is again forwarded to the next step until it reaches the Committee on Courses. The routing schedule is listed below:

For Undergraduate Courses
1. Courses Office
2. College (or School) Executive Committee
3. Committee on Courses

For Graduate Courses
1. Courses Office
2. Dean of the College (or Division) for review
3. Graduate Division
4. Committee on Courses
For Professional Courses
1. Courses Office
2. College (or Division) Executive Committee
3. Graduate Division
4. Committee on Courses

For Extension Courses
1. Dean of University Extension
2. Chair of the academic department
3. Committee on University Extension
4. Committee on Courses

Submission deadlines for proposals for courses numbered 001-299 are posted at http://senate.ucr.edu/Committees/courses/default.htm under the link “Course Submission Deadline Schedule.” Submission deadlines for courses numbered 300-499 may be obtained from the Courses Office (X2-2459).

TABLE OF CONTENTS
Routing of Course Proposals 1
Classification and Number of Courses 4
   Classification: Classification 4
   Lower division courses 4
   Upper division courses 4
   Graduate courses 4
   Professional courses for teachers 4
   Other professional courses 4
   Individual study or research graduate courses 4
Undergraduate Courses  4
Graduate Courses  5
Professional Courses  5
   Numbering  5

E-Z Umbrella Course without Segment Subtitles Listed
E-Z Umbrella Course with Segment Subtitles Listed Separately
Procedure for Approval of an E-Z Umbrella Course
Procedure for Approval of an E-Z Umbrella Course with Segment Subtitles Listed in Its Description
Procedure for Approval of an E-Z Umbrella Course without Segment Subtitles Listed in Its Description
Procedure for Approval of an Individual Segment Whose Subtitle Is Not Listed in the Description of Its Umbrella

Segment Lettering and Titles
Special Studies (90-190) and Directed Studies (290) Courses
Special Studies Courses (90 and 190)
Directed Studies Courses (290)

Internships
Guidelines
X-100 and X-200 Courses in University Extension
Summer Session Courses
Continuity of Course Offerings
Policy Statement for Courses that Have Not Been Offered for Four Consecutive Years
“One-Time Only” Courses
Use of Films in Academic Courses
Courses Containing Experiments Using Recombinant DNA
Requests for Approval of Associate Instructors (Associates-In) and of Teaching Fellows
In submitting a course request form, the following items must be given consideration:

I. **Classification and Number of Courses:**

   A. **Classification:** Classification of courses is contained in Senate Regulations (SR) 739, 740, and 742.1

   SR 740 classifies courses as:

   1. **Lower division courses** are open to freshmen and sophomores and are numbered 1-99 or are designated by a letter, especially if the subject is usually taught in high school. In no department is a lower division course acceptable for upper division credit.

   2. **Upper division courses** are numbered 100-199 and are ordinarily open only to students who have completed at least one lower division course in the given subject, or six quarters (or four semesters) of college work. Special study courses for undergraduates are numbered 199.2

   3. **Graduate courses** are numbered 200-299, and are ordinarily open only to students who have completed at least 18 (or 12 semester) upper division units basic to the subject matter of the course. Graduate courses must be approved by the Graduate Council concerned and, if appropriate, by the Divisional Committee on Courses.

   4. **Professional courses for teachers** numbered 300-399, are offered in (the Graduate School of) Education, and in other departments and are specially designed for teachers or prospective teachers.

   5. **Other professional courses** are numbered 400-499.

   6. **Individual study or research graduate courses** are numbered 500-599 if they may be used to satisfy minimum higher degree requirements, otherwise they are numbered 600-699.3

In addition, the Committee on Courses will apply the following standardization to all courses:

**UNDERGRADUATE COURSES**

1 Universitywide Manual of the Academic Senate.

2 Riverside uses a slight variation from SR 740 in those courses assigned numbers 190-199.

3 500-699 courses are not in common use in Riverside.
Seminar in _______________

Junior Honors Seminar (1-4)  
Senior Seminar (1-4)  
Senior Honors Seminar (1-4)  
Independent Reading (1-2, with a maximum of 4 units)
Senior Thesis (4-4-4 or less, maximum 12)
Senior Research Paper (1-4, not repeatable)
Research for Undergraduates (1-4)
Internship, Group (1-12, repeatable to 16)
Junior Honors Research (1-4)
Internship, Individual (1-12, repeatable to 16)
Senior Research (1-4)
Senior Honors Research (1-5)

GRADUATE COURSES

200-299

Titles and Numbers for Special Graduate Courses

Interdisciplinary Seminar
Directed Studies (1-6)
Individual Study in Coordinated Areas
Concurrent Studies in [Department/Program] (1-4, repeatable for credit; concurrent enrollment by graduate student in undergraduate course, with credit for additional graduate level participation)
Directed Research (1-6)
Internship, Group (1-12, repeatable to 16)
Internship, Individual (1-12, repeatable to 16)
Research for the Thesis or Dissertation (1-12)

PROFESSIONAL COURSES

Professional Courses for Teachers
"Teaching of ________ at the College Level" or "Directed Studies in the Teaching of ________" (To be graded S/NC. Units must accurately reflect hours of training.)
"Apprentice Teaching" or "Teaching Practicum", variable (1-4) units. Open to all students.

---

4 See footnote 3 on page 4.
appropriate Academic Student Employees (ASE's) with units assigned to reflect
non-paid teaching activity during the applicable quarter. To be graded S/NC.

398G Internship, Group (1-12, repeatable to 16)
398I Internship, Individual (1-12, repeatable to 16)
400 - 499 Other Professional Courses

B. Numbering:

1. A, B, C, D: These letters are used in sequential course titles to indicate the affinity of
topics covered in the several quarters. Lower division courses on subjects usually taught
in high school often have letter designations (i.e. CHEM 001A, CHEM 001B). Students
are generally required to complete the whole series or a substantial portion of it. A, B, C,
D, courses do not necessarily indicate sequential presentation of the courses. Each
quarter's offering is considered a separate course, and new courses must be proposed
separately, indicating as specifically as possible the content of each quarter's course.

2. E-Z: The letter designations "(E-Z)" immediately following a course number (e.g., HIST
191 (E-Z), Seminar in History) indicate that different segments or topics within the
sequence may be taken for credit. These segments are relatively free standing and
students are generally not expected to take the whole series or a substantial portion of it.
A student may not receive credit for the same lettered segment unless otherwise indicated
in the course description. The letters "E" through "Z" do not indicate an order or
prerequisites.

3. H: The letter "H" immediately following a course number usually designates an honors
course.

4. L: The letter "L" immediately following a course number in the sciences usually
designates a laboratory course.

5. Reusing a Course Number: It is recommended that a minimum of three years elapse
before a number is reused to designate a different course.

6. Renumbering of Existing Courses:

a. Renumbering of existing undergraduate course within undergraduate listing;
   renumbering an existing graduate course within graduate listing:

   Proposal is submitted as "Change existing course" to reflect the number change.

b. Renumbering existing undergraduate course as a graduate course, or vice versa:

   Two course proposals are required: one for the “new” course and one for “deletion
   of course."

II. Preparation of Course Proposals.

5 For additional information on E-Z courses see pp. 10-13.
Course proposals are prepared and may be viewed via the Course Request and Maintenance System (CRAMS). Instructions for obtaining access to and using CRAMS are located at http://oas.ucr.edu/Crams/Html/Help/help.html.

A. Special Instructions for Completing Sections within the Box on the Course Proposal

1. Course Title and Subtitle: Titles and subtitles should be in English and provide a precise description of content and emphasis. As titles and subtitles that are more than 32 spaces in length will be abbreviated in the Schedule of Classes and on transcripts, care should be taken to ensure brevity and clarity of content.

2. Units: SR 760 states: "The value of a course in units shall be reckoned at the rate of one unit for three hours' work per week per term on the part of the student, or the equivalent."

The academic unit submitting the course must substantiate conformity to SR 760.

3. Number of Hours: The number of hours per week proposed by the department should be specified as to lecture, seminar, discussion, workshop, colloquium, laboratory, practicum, research, studio, screening, consultation, field, internship, individual study, extra reading, term paper, or other activity. Hours per week per unit of credit may not be less than, but may exceed, those listed in the following guidelines:

   a. One unit for each hour per week of lecture, seminar, discussion, workshop, colloquium, or consultation. Discussion is assumed to mean that the class meets regularly each week for the purpose of group consideration of course materials as distinct from lecture. The designation of one hour for "consultation" implies a regularly assigned meeting of one hour with each student each week. If such consultation is less, the unit assignment must be appropriately adjusted.

   It is understood that a minimum of two hours of outside reading or other preparation is expected each week for each hour of lecture, seminar, consultation or discussion.

   b. One unit for each two to three hours per week of studio, which includes performance or individual practice.

   c. One unit for each three hours per week of laboratory, practicum, field work, screening, internship, clinic, thesis, tutorial, and similar assigned problems.

   d. One unit for three hours of outside reading or other preparation each week is expected for individual study, research, extra reading, term paper, etc. These categories imply that the reading or research effort exceeds the standard preparation to support lecture, discussion, etc. (as described in “a” above). The content of these educational activities and the method of evaluation must be described in the syllabus.

   e. Internships: Internships (courses numbered 198I, 198G, 298I, 298G, 398I and 398G) have additional activity and hour requirements. See section VII in these guidelines.
The Committee on Courses may require academic units submitting courses to substantiate conformity to these guidelines.

For the actions listed below, explain in the syllabus how consultation hours are implemented and monitored.

- New course
- Restoration of course
- Change of “consultation” hours of an existing course
- Addition of “consultation” hours to an existing course

For the actions listed below, describe activities that do not involve faculty contact and explain how they are evaluated. Present this information in the syllabus.

- New course
- Restoration of a course
- Change of the “noncontact” hours of an existing course
- Addition of the “noncontact” hours to an existing course

4. **Prerequisites**: Prerequisites for courses are established by the department, committee, or program, and require the approval of the Committee on Courses. Prerequisites for upper-division and graduate courses should ordinarily meet the requirements of SR 740. The Committee interprets SR 740 to mean that the minimum prerequisite(s) for courses numbered 100-199 (inclusive) is/are “upper-division standing or consent of instructor” and/or successful completion of one or more introductory course(s) in the discipline. The minimum prerequisite for courses numbered 200 and above is possession of a bachelor's degree or other evidence of academic maturity. Prerequisites less restrictive than these will be permitted only for extraordinary reasons and will require strong justification. Normally, prerequisites should be limited to the courses necessary for students to comprehend the material presented in the proposed course. More extensive prerequisites must be justified.

Redundancy in lists of prerequisite courses should be avoided. For example, lower-division courses that are already subsumed under upper-division requirements should not be included in the list.

5. **Course Description**: The description appears in the catalog and should convey the material, the nature, and the scope of the course in a manner that provides guidance to students as they select courses. Descriptions should comply with campus style guidelines and be 50 words or less, with the word count standard determined by the Registrar's Office.

6. **Grading and Repeatability**: Indicate the grading basis for the course. If the course has special grading or is repeatable, include this information in the appropriate section(s).

7. **Cross-listed Courses**: List any cross-listed (identical) courses in the appropriate

---

Note: Academic maturity is presently attested to for undergraduates by a GPA in excess of 3.0, consent of the instructor, and evidence of successful completion of upper-division work in the same discipline.
section.

8. **Duplicate or Overlapping Courses:** If the course content overlaps with the content of other courses to the extent that credit is awarded for only one of the courses (e.g., HNPG 010A, HMSS 001, and HMSS 002), state so in the Credit Statement section.

B. **Instructor:** SR 750 states: “(A) Only regularly appointed officers of instruction holding appropriate instructional titles may have substantial responsibility for the content and conduct of courses which are approved by the Academic Senate. (B) Professors, professors in residence and adjunct instructors, and lecturers may give courses of any grade. Persons holding other instructional titles may teach lower division courses only, unless individually authorized to teach courses of higher grade by the appropriate Committee on Courses or Graduate Council. If a course is given in sections by several instructors, each instructor shall hold the required instructional title. (C) Announcements of special study courses in which individual students work under the direction of various members of the department may state that presentation is by the staff, but a member of the department shall be designated as the instructor in charge. (D) Only persons approved by the appropriate administrative officer [Dean of the College from which the request originates], with the concurrence of the Committee on Courses concerned, may assist in instruction in courses authorized by the Academic Senate. (E) No student may serve as a reader or assistant in a course in which he is enrolled.”

All new courses should state the name of the intended instructor(s). Changes in existing course(s) should state the name of the instructor(s) who will be teaching the course(s) or the name of the instructor in charge [SR750.c.].

C. **Justifications:** For a new course or restoration, describe how the course will strengthen the offerings of the academic unit. For a revision, state the reason for each action requested. For a deletion, explain why the course is no longer necessary or why it can no longer be taught.

Include descriptions of new E-Z segments that are not described in the catalog description.

D. **Syllabus:** For a new course, restored course, or a course with a substantive change, include a substantive current or proposed course outline or syllabus and weighted grading criteria.

For the actions listed below, explain how consultation hours are implemented and monitored.

New course
Restoration of a course
Change of “consultation” hours of an existing course
Addition of “consultation” hours to an existing course

For the actions listed below, describe activities that do not involve faculty contact and explain how they are evaluated.

New course
Restoration of a course
Change of “noncontact” hours of an existing course
Addition of “noncontact” hours to an existing course
If the course uses distance education technologies, describe the instructional arrangements.

**GENERAL POLICIES**

In approving, disapproving, or recommending changes in course proposals, the Committee will be guided by the rules given above and by the following general policies:

I. **Level and Emphasis of Courses:**

   The primary emphasis in the course should be academic and not vocational, stressing the acquiring of a body of knowledge and the understanding of principles and theories rather than the development of skills and techniques for immediate practical application in a vocational sense. The skills and techniques should be taught as means to learning, analyzing, and criticizing theories and principles, not for vocational ends themselves.

II. **Scope and Organization of Courses:**

   Although the Committee does not decide general educational policy nor does it intend to infringe upon departmental judgment as to course content, it will use the following criteria for evaluating a course proposal:

   - The course should have a clear and essential place in the overall offering of the department, division, or school; either filling a gap in the existing course structure, or strengthening that structure without duplication or excessive overlapping.
   - Basic courses should not constitute proliferation, i.e., the splitting up of a body of knowledge or a field of study into parts too small to warrant separate treatment in themselves. Seminars offer such a specialized approach.
   - Courses should be organized realistically with respect to quality of understanding versus quantity of material a student is expected to master in the time allotted. The catalog description should make clear the special nature of a particular course.

III. **Course Duplication or Overlap:**

   The Committee on Courses is watchful of duplication or overlap of courses offered by other academic units. **It is the responsibility of the department/program to ensure that any new course it proposes does not duplicate nor overlap existing courses offered by other units on campus.** It is imperative that the originating unit provide adequate explanation and/or written concurrence from department(s) where duplication or overlap would exist.

   **NOTE:** It is in the department's own interest to provide such an explanation and consent. If the Committee on Courses has any questions concerning potential duplication or overlap of a proposed new course, the proposal will be returned to the originating department/program for evidence that consultation has taken place.

IV. **Guidelines for Cross-Listing of Courses:**

   The use of and need for CROSS-LISTING of courses varies widely from program to program.
A. Policy Statement:

1. Cross-listed courses are jointly owned and require the agreement of ALL the departments/programs, for which they have been approved, on all aspects of the course including changes subsequent to initial approval.

2. A request for cross-listing with an existing course must be accompanied by concurrent course requests from ALL of the departments and/or programs with whom the course is to be cross-listed. A syllabus is not required for new courses being cross-listed with an existing course.

3. The request for a new course, when submitted for cross-listing, must be accompanied by request forms from ALL departments and/or programs involved. The information within the “box” on the course request form (e.g., title, description, units, etc.,) must be the same on the forms submitted by ALL participating departments or programs with the exception of the department name and course number. It is recommended that cross-listed courses have the same number but it is not required.

4. Any and all changes in the description, title, units, etc., of an existing cross-listed course require concurrent agreement and submission of course request forms by ALL departments and/or programs involved.

The cross-listing of courses is an established practice which is to be continued. Extreme examples of multiple cross-listing exist, indicating the need for guidelines to be used in the consideration of cross-listing requests. The guidelines enumerated have been prepared with consideration to the “Recommendations” of the Committee on Educational Policy (3/17/80). The needs and views of the Colleges of Natural and Agricultural Sciences and of Humanities, Arts, and Social Sciences have been solicited and considered.

B. Guidelines for Approval of Cross-Listed Courses:

1. Courses created jointly by faculty from more than one department/program will normally be considered for cross-listing.

2. Courses in which instruction is shared by faculty from more than one department/program will be considered for cross-listing. Sharing is interpreted as co-equal responsibility for content, presentation, and the evaluation of student performance. For the purpose of these guidelines, “Guest” lecturers invited from other departments/programs will not be interpreted as adequate justification of cross-listing requests.

3. New courses prepared for a department or program by a faculty member (or members) from other departments/programs can be considered for cross-listing.

4. Approval of the course’s instructor(s) by all departments/programs is required at the time cross-listing of a course is proposed.

5. Recognizing the potential occurrence of “COMPELLING” administrative or educational reasons for proposing cross-listing, such requests can be considered. Such requests must be strongly justified by those making the request. Cross-listing requests
in this category are interpreted as occurring in response to truly exceptional circumstances. Cross-listing for the purpose of cross-disciplinary student “advising” will not be considered.

6. If two or more departments/programs deem the content of a course appropriate for inclusion in their respective curricula, the course will be considered for cross listing. If more than three departments request cross-listing of a single course, the Committee requests strong justification.

V. E-Z Courses

The E-Z course format provides a mechanism whereby many subtopics may be presented under one broad, umbrella topic. The course title covers the broad topic, with the subtitles of lettered segments (E through Z) identifying more specific subject areas. E-Z umbrella courses may be developed within the undergraduate, graduate, and professional school curricula. These offerings may be used to take advantage of the expertise of visiting professors (“one-time only” offerings) and/or to test acceptance of a course topic with an eye to possible formalization of the more popular segments into regularly scheduled courses. Lettered segments within the E-Z umbrella course may be offered at regular or irregular intervals, based upon student and curricular needs. Generally, the letters H and L are not used for segments to alleviate any confusion with Honors courses or Laboratory courses. When creating an E-Z course, select the most appropriate of the three formats described below. Course descriptions will appear in the General Catalog as shown in the examples.

E-Z Umbrella Course with Segment Subtitles Listed in Its Description

This format is recommended when the majority of the segments are frequently offered, segments have a similar design, and segment descriptions are not needed to provide guidance to students as they select courses. [See example on next page.]

Example:

MUS 080 (E-Z). Private Instruction: Voice, Keyboard, and Strings (1-2) Studio,. 5-1 hour; individual practice, 5-10 hours. Prerequisite(s): MUS 001 or equivalent; consent of instructor. Students take a half- or one-hour lesson and practice 5 to 10 hours each week (see the note regarding fees under the Major Requirements section). Offered as demand indicates. E. Voice; F. Classical Piano; G. Jazz Piano; I. Harpsichord; J. Carillon; K. Jazz Guitar; L. Electronic Bass Guitar; M. Lute; N. Classical Guitar; O. Viola da gamba; P. Piano Proficiency; Q. Organ; R. Violin; S. Viola; T. Violoncello; U. Double Bass Viol. Normally graded Satisfactory (S) or No Credit (NC), but students may petition for a letter grade on the basis of performance before a jury or at a recital. Segments are repeatable.

E-Z Umbrella Course without Segment Subtitles Listed

This format is recommended when the majority of the segments are infrequently offered.

Example:

ENGL 142 (E-Z). Cultural Studies (4) Lecture, 3 hours; reading (extra), 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. The formal, historical, and theoretical analysis of culture in its broadest sense, including popular literature, the mass media, and/or the
interplay between "low" and "high" or peasant and elite cultural forms. Topics may be
drawn from any historical field.

E-Z Umbrella Course with Segment Subtitles Listed Separately
This format is recommended when the majority of the segments are frequently offered and
segment descriptions are needed to provide guidance to students as they select courses.

Example:

RLST 128 (E-Z). Topics in the Bible (4) For hours and prerequisites, see segment
descriptions. Academic examination of issues relating to the Bible.

RLST 128E. Contemporary Views of Jesus (4) Lecture, 3 hours; individual study, 3 hours.
Prerequisite(s): upper-division standing or consent of instructor. An examination of
contemporary ways in which Jesus has been understood by academically oriented
scholarship. Particular attention is given to the question of sources and of the methods used
to identify those parts of the preserved tradition that are attributed to Jesus himself.

RLST 128F. Biblical Fictions (4) Lecture, 3 hours; outside research, 3 hours.
Prerequisite(s): RLST 010; upper-division standing or consent of instructor. Examines
artistic rewritings of biblical narratives from antiquity to the present (ancient Jewish and
Christian novels, medieval plays and stories, modern films and novels) to explore the
intersections of religion, culture, and society.

A. Procedure for Approval of an E-Z Umbrella Course.

Submission of an E-Z umbrella course request must follow the same routing as for any
permanent course. The Committee on Courses recommends that the segment subtopics to
be offered under an E-Z series be identified at the time of submission of the E-Z umbrella
course request. Segments are regular courses of instruction. Descriptions and course
outlines for new segments must be provided.

B. Procedure for Approval of an E-Z Umbrella Course with Segment Subtitles Listed in Its
Description.

1. An E-Z umbrella course with segment subtitles in its description must follow the same
routing as for any permanent course. The course request should be for the E-Z
umbrella number [i.e., FREN 177 (E-Z)]. The “Catalog Description” should consist of
the umbrella description followed by the segment letters and subtitles [in alphabetical
order]. The “Justification” for the umbrella should contain the segment descriptions.
An outline or syllabus for each segment must be included in the course request. The
“Closing Notes” section of the course request should indicate which segments are
being added.

2. New segment letters and subtitles may be added to an existing E-Z series by
submission of a course request for the umbrella and number. The “Catalog
Description” should consist of the umbrella description followed by the existing and
proposed segment letters and subtitles. A description of each new segment should be
included in the “Justification” and a course outline for each new segment must be
included in the course request.

Exception: If the segment is to be offered “one time only” it should be submitted on a
separate course request. That is, a course request should be submitted for the E-Z umbrella number with the segment letter (i.e., HIST 111E).

3. A stronger prerequisite than what is stated in the umbrella may be required for a new segment. The specific prerequisite(s) and the segment letter it applies to should be added to the prerequisite(s) for the umbrella.

4. If an academic unit wishes to change or delete a segment letter and subtitle, a course request for the umbrella number must be submitted. The “Catalog Description” should consist of the umbrella description followed by the existing segment letters and subtitles [in alphabetical order]. Proposed changes in segment letter(s) and subtitle(s) should be included. Segment letters and subtitles to be deleted should be removed. The “Closing Notes” section of the course request should indicate which segments are being changed and/or which segments are being deleted. An explanation for the changes/deletions should be provided in the “Justification.” If the segment change affects the segment description, a new description should be included in the “Justification” and a course outline must be included in the course request.

C. Procedure for Approval of an E-Z Umbrella Course without Segment Subtitles Listed in Its Description

1. An E-Z umbrella course without segment subtitles in its description must follow the same routing as for any permanent course. The course request should be for the E-Z umbrella number and title [i.e., FREN 177 (E-Z)]. The “Catalog Description” should consist of the umbrella description.

   a. Academic units may choose to establish a segment whose subtitle is not listed in the description of its umbrella course. The complete description of such a segment may or may not be listed in the General Catalog at the unit’s option. However, if the description of one segment of an umbrella is listed in the General Catalog, the descriptions of all other segments of that umbrella must also be listed. "One-time only" segments will be considered as "not for catalog listing."

   b. Academic units may establish segments of this type by submitting a course request for the E-Z umbrella number with the segment letter (i.e., HIST 111E). These course requests must follow the same routing as for any permanent course. The "Catalog Description" would be the segment description and a course outline must be included in the course request.

   c. Unit requirements are approved at the time the E-Z umbrella is approved. When a segment with unit specifications differing from the umbrella is submitted for approval, a change in the existing umbrella should be submitted at the same time to show the variable units.

   d. Existing segments not listed in the catalog can be scheduled for presentation in any quarter.

   e. When an academic unit chooses to change or to delete an existing segment, a course
request for the E-Z Umbrella with the segment letter (i.e., HIST 111E) should be submitted. The request must follow the same routing as for any permanent undergraduate or graduate course being changed or deleted.

f. A course request for a segment must include the applicable restrictions, special grading, and cross-listing notations from its umbrella course request. If restrictions, special grading or cross-listing notations are added, deleted or changed on the umbrella course request, course requests reflecting these changes must be submitted concurrently for the umbrella’s segment.

D. Segment Lettering and Titles.

It is important that letters and subtitles for E-Z segments be assigned carefully and consistently. A student may not receive credit for the same segment unless otherwise indicated in the course description. A student may receive credit for repeating the umbrella course if the segment letter and subtitle is different. Duplication of content by different segments within a series is to be avoided. If an activity within an E-Z umbrella course necessitates reuse of alphabet letters, it is recommended that a minimum of three years elapse before a letter is reused to designate a different segment subtopic.

VI. Special Studies (90-190) and Directed Studies (290) Courses:

A. Special Studies Courses (90 and 190).

The sole purpose of undergraduate Special Studies courses (90 and 190) is to provide students with a means for meeting special curricular requirements or problems on an individual basis and for variable units.

Registration in all special studies courses must be approved by the chair of the department/program concerned, based upon a written proposal submitted to the chair. (SR 546)

B. Directed Studies Courses (290).

The sole purpose of graduate Directed Studies courses (290) is to provide students with a means of conducting individual, supervised research or for studying special topics on an individual basis and for variable units.

Registration in all directed studies courses must be approved, in the form of a written petition, by the instructor and the department chair or graduate advisor. The petition must be filed with the office of the Dean of the Graduate Division. (GR 1.5.10)

VII. Internships:

The internship experience has become an increasingly important component in the academic training of our students. Internships differ from Special Studies (90 and 190) by the involvement of a non-departmental sponsor (generally off campus) in addition to the faculty member/student relationship.
Riverside Division Regulation R1.9 adopted in December 1976 states: “A maximum of 16 units of credit may be obtained through internship courses, with a maximum of 12 units of internship scheduled in a single quarter. Internship course credit is given for academic work related to the experience of the internship, not for the work experience alone.”

Guidelines: The following internship guidelines were also adopted:

1. An academic internship is defined as an educational experience in which the student works under the direct supervision of someone other than a faculty member, normally in an agency/firm/institution outside the campus, with a faculty supervisor ultimately responsible for assigning and evaluating academic work done for course credit in relationship to the experience. Under no circumstances will credit be given for the internship experience alone.

2. Each department wishing to sponsor internships will have a designated ladder faculty member or lecturer who is responsible for seeing that a common standard is applied to all internships and that these guidelines are adhered to in all instances.

3. The course number 198 is required for internships: 198I is suggested for individual internships and 198G for group internships. The course number 298 is required for those internships considered by the department to be “graduate”: 298I is suggested for individual internships and 298G for group internships. These graduate internships will normally carry credit toward a graduate degree. The course number 398 will be required for those internships considered by the department to be “professional”: 398I is suggested for individual internships and 398G for group internships. These professional internships will carry academic credit but will not count toward a degree.

4. For individual and group internships, the student and designated faculty member will submit on an appropriate form a clear-written statement of purpose, field experience content, and academic content of the proposed internship. The proposal must be approved by the chair of the department or program in which the internship is offered.

5. The essential criterion for one unit credit is one hour of academic work plus two or more hours of internship per week. Internship courses should normally be listed as 1-12 units, repeatable to a maximum of 16. The normal expectation is that each local internship will not count for more than 4 or 5 units in a single quarter, larger numbers of units being reserved for quarter-away types of situations.

VIII. X-100 and X-200 Courses in University Extension:

In order to facilitate its review of course proposals in University Extension in the X-100 (undergraduate) and X-200 (graduate) series, the Committee on Courses requires from the chairs of departments and programs a brief statement, accompanying the proposal form, vouching for the validity of the course proposal and its acceptability for majors in their respective departments.

IX. Summer Session Courses:

Any course listed in the General Catalog may be offered in Summer Session. No additional approval is required for these courses to be offered in Summer Session. New or experimental courses, modifications of catalog courses, and any other instruction not previously approved, which is proposed by a department/program for presentation in Summer Session must follow the
normal Academic Senate procedures for course approval. If a course will be offered in Summer Session only, add the following statement to the end of the course description: Offered in summer only.

X. Continuity of Course Offerings:

Unless otherwise specified, a course that has been approved by the Committee on Courses may be offered in any quarter. However, if any course has not been offered by a department for four consecutive years the Committee on Courses may request that it be deleted. (See Riverside Division Bylaw 8.11.4.) This policy is intended to ensure that the General Catalog will accurately reflect the departments’ regular course offerings and to encourage departments to examine carefully the justification for retaining infrequently offered courses on the basis of the departments’ curricular objectives and resources. Courses offered only on an intermittent basis should be considered for inclusion in an appropriate E-Z series.

XI. Policy Statement for Courses that Have Not Been Offered for Four Consecutive Years:

Periodically, the Committee on Courses will send lists of courses that have not been offered during the previous four years and eight years to departments. For courses that have not been offered in four years, the departments should either prepare deletion requests or advise the Committee on Courses that they intend to offer the course(s) during the upcoming year. For courses that have not been offered in eight or more years, the departments should prepare deletion requests. A course can be reinstated after deletion by submission of a course request for restoration.

XII. “One-Time Only” Courses

Special courses to be taught by visiting instructors or courses that are planned as a single offering should be submitted as “one-time only.” Check the “To be offered once only:” box and fill in the Quarter and year it will be offered. These courses then will be automatically deleted upon completion without additional paperwork.

XIII. Use of Films in Academic Courses:

Courses centering on films should include regular lectures and discussion comprising at least half of the course content. Substantial reading lists, term papers, etc., should be required in addition to screening films. Suggestions on information to be included with the course form can be found in the memo of June 20, 1984, from the Committee on Courses to Department/Program Chairs.

XIV. Courses Containing Experiments Using Recombinant DNA:

Undergraduate and graduate course requests which contain experiments using recombinant DNA technology must have the experiments approved and certified by the UCR Institutional Biosafety Committee (IBC). The Committee on Courses will not approve such course requests if the use of recombinant DNA has not been certified.

It is the instructor's responsibility to complete and forward the “Biological Use Authorization (BUA)” form to the Compliance Officer of the IBC, Office of Research. A copy of the approved registration form should be attached to the course request form when it is submitted to the Committee on Courses. If the course changes and the use of DNA is substantially changed, the instructor should submit a written notification to the Compliance Officer of the IBC, Office of
Research. A copy of the approved notification should be attached to the change in course request form when it is submitted.

XV. **Requests For Approval Of Associate Instructors (Associates-In) and of Teaching Fellows**

Normally an Associate will conduct the entire instruction of a lower division course or a group of students in a lower division course. An Associate may not give an upper division or graduate course or course section except with the approval of the campus Committee on Courses of Instruction. (SR 750)

Academic Personnel Manual 410-20b. states “Subject to the general supervision of a faculty member . . . , a Teaching Fellow should be competent to provide the entire instruction of a lower division course to a group of students, and normally should be given such assignments. Assignment to conduct instruction in an upper division or graduate course or section may not be made except with the approval of the Committee on Courses of Instruction (Regulation of the Academic Senate, 750).”

A request for approval of an associate-in or teaching fellow to teach an upper division course or graduate course (teaching fellow only) should be sent to the Committee on Courses through the college/school dean (who endorses the request) in accordance with published deadlines. The Committee on Courses is under no obligation to consider requests for approval beyond published deadlines.

The request should contain:

- A justification for the necessity of hiring an Associate In to teach the particular course in question.
- The candidate's complete curriculum vitae (CV); the standard University Biography Form for Academic Personnel (U1501) may be submitted, but departments are urged to work with the candidate to develop a professional CV for submission.
- A summary statement of the individual's qualifications regarding both knowledge of the field and preparation for classroom presentations.
- Copies of teaching evaluations for all lower or upper division course(s) the candidate has recently taught.
- The candidate's graduate transcript.
- The candidate's current GPA.
- Name(s) of faculty who will monitor course presentation quality. For first time appointments, departments are urged to ensure that monitoring is close and direct.

In cases where the Associate is to teach a cross-listed course, a memo of agreement from the relevant department(s) should accompany the request.
