Lower-division requirements

All the emphases lower-division unit requirements will increase by one unit and in the process we have also corrected the total amount of units listed in the current catalog. These changes are reflected in the units indicated above.

Pending approval BCH 095 has been submitted in CRAMS.
BCH 095 (1 unit) Lecture 1 hour week, graded S/NC. Prerequisite: a major in Biochemistry with lower division standing.

Chemistry Emphasis 1. a)
Medical Sciences Emphasis 1. a)

Effective Fall 2008 new Biochemistry Freshmen Admits will be required to take BCH 095 "Topics in Biochemistry for Career Planning" during the Fall Quarter of their freshmen year. BCH 095 will be used in lieu of the NASC 093 requirement to meet the Biochemistry Department's goal of advising Biochemistry Majors with topics specific to Biochemistry majors and to guide the student towards their academic and career goals. Transfer students will not be required to take the course.

Biology Emphasis 1. b), c), d), e)
Chemistry Emphasis 1. b), c), d), e)
Medical Sciences Emphasis 1. b), c), d), e), f)

BCH 095 was added at the top of the list of lower-division requirements as "a)" and for clarification and consistency we listed the other lower division requirements alphabetically. No other changes have been made to the current listing.
