Students who wish to Minor in Geology or Geophysics must complete 20-28 units of organized upper division courses in Earth Sciences. A minimum of 16 of these units must be unique to the minor and cannot be used to satisfy major requirements. Due to prerequisites, additional preparatory coursework in Earth Sciences and other sciences (Biology, Chemistry, Mathematics, Physics) may be required.

Minor in Geology: GEO 001, GEO 115; plus 15-23 additional upper division Earth Sciences courses.

JUSTIFICATION:

This program change is to correct a typographical error. In the Minor description the typo “courses” is changed to “units”. Also the “Earth Sciences” upper division courses are actually “Geosciences” courses.

APPROVALS:

Approved by the faculty of the Department of Earth Sciences: 10/26/07
Approved by the Executive Committee of the College of Natural and Agricultural Sciences: 11/6/07
Approved by the Committee on Educational Policy: 1/9/08
