JUSTIFICATION:

Biology Emphasis 1.d,
Chemistry Emphasis 1.d
Motivation for change – An examination of the syllabi for Math 9C and Math 46 indicates that the latter, an introduction to differential equations, is more appropriate preparation for CHEM 109 and BCH 184; anticipated impact of change & resources required by the program – none; the way in which the change will be implemented with respect to students already in the program – students who have already taken MATH 9C will NOT be required to take MATH 46. The proposed change was made in consultation with (indeed at the recommendation of) the Chair of the Department of Mathematics, Dr. Vijayanthi Chandri.

BCH 187 as an elective:
Biology 3.b & (1)
Chemistry 3.b
Motivation for change – To introduce a new upper-division elective in an important area of biochemistry; anticipated impact of change & resources required by the program – none, course will be taught by newly hired BCH faculty; the way in which the change will be implemented with respect to students already in the program – BCH 187 will be offered as an elective only, and all students will have the option of using it to fulfill program requirements.
