ME5.8.3 Members of the Committee shall be appointed with staggered starts and a three-year term, by the Faculty Executive Committee in consultation with the Dean of the School of Medicine. (En 25 Feb 2014)

Statement of Purpose and Effect:

SOM bylaws were updated to provide both clarity and flexibility in addressing a number of issues to accommodate a rapidly growing SOM Faculty and to reflect recent policies that are in place since its original approval in 2014.

Summary of proposed revisions:

ME - similar to bylaws from other UC medical schools we propose to include the statement referring to UC shared governance process;

ME2.1 - we would like to clarify the role of Faculty and Dean's office in the shared governance process, which is requested by LCME and is included in bylaws of other UC SOMs;

ME5.2.5.3 - FEC does not award degrees but makes recommendations and there are no Latin honors offered at the SOM;

ME 5.3 - as our SOM has grown into a four-year med school the number of pre- and clerkship directors/coordinators has grown as well. So it is impractical to include all coordinators;

ME5.3.1 - the proposed changes are made to incorporate existing policy approved by Faculty into our bylaws, such as to delegate to Medical Education Committee to take actions on all matters pertaining to the educational policies and curriculum of the UCR School of Medicine and that Medical Education Committee will report to FEC to resolve difficult problems or on matters that must be presented to the full Faculty

ME5.4.1 - the proposed changes are made to incorporate existing policy to delegate to the Medical School Admissions Committee authority to make the final decision for admission of medical students to the UCR School of Medicine into our bylaws. Medical School Admissions Committee will also report to FEC to resolve difficult problems or on matters that must be presented to the full Faculty

ME5.4.2 - we suggest removing ME5.4.2 to ensure flexibility as the number of medical students applying to UCR SOM is growing and we may need flexibility in determining the number of subcommittees;

ME5.4.2 to ensure flexibility as the number of medical students applying to UCR SOM is growing and we may need flexibility in determining the number of subcommittees;

ME5.5 - there may be potentially conflicts of interest if we choose mainly from pre-clerkship or clerkship directors;

ME5.5.1 - the proposed changes are made to provide clarity on duties of the Progress and Promotion committee

ME5.7 - we suggest replacing "a total of" with "at least" to ensure flexibility as the number of volunteer clinical faculty is growing and we need flexibility in determining the number of faculty serving on the committee;

ME5.8 - this was previously included to ensure inclusion of clinical faculty in the process when Clinical Sciences Division was very small. To be consistent all Chairs will be elected by FEC including this committee. There is no advantage in electing a Chair of only this committee by its members;

ME5.8.3 - we have no Executive Dean at this time.
