To be adopted:

The Riverside Division, in accordance with the procedures for change in degree title, recommends the change in degree title for the M.S. and Ph.D. degrees in Soil Science to M.S. and Ph.D. degrees in Soil and Water Sciences.

Justification:

The Graduate Council recommends the formal change in degree titles for Soil Science to degree titles in Soil and Water Sciences. The change in formal degree requirements reflect the expansion of course offerings associated with this new degree title. The Committees on Educational Policy, Planning and Budget and the Library Committee have all reviewed and approved this recommended change. The Graduate Council recommends adoption.

Helen L. Henry, Chair
Graduate Council

Approved by Educational Policy Committee on September 30, 1998.
Approved by Planning and Budget Committee on July 16, 1998.
Approved by Committee on Library on June 30, 1998.
