

Course Proposal Approval Process

*When courses are submitted in CRAMS by the program course preparer they are first routed to the Registrar’s Office and then to the College Executive Committee for approval prior to being forwarded to the Graduate Council. In order for courses to make the Graduate Council agenda deadline, they need to be received in the Graduate Council’s CRAMS queue no later than 5:00pm on the day of the deadline. Due to these additional approvals that are needed prior to Graduate Council review, it is best if course preparers submit courses well in advance of the deadline.

Please see the following links for course proposal deadlines:
