Advisors: When you have approval from George Haggerty for the student to enter
the concentration, here is a link to the instructions to enter the student in the
concentration in SIS+:

Information for College Student Affairs Advisors to enter students in SIS+

On the Comments screen (048) the advisor will input a new note:

Type - G (for general)

Reason - there are currently two reasons:

   UA - Breadth Concentration: California

   UB - Breadth Concentration: Climate Change/Sustainability

Also put Term effective.

Advisors also have the ability to include any additional notes they feel they would like to
add to this that might be important related to the concentration. The degree audit
component of these concentrations must be done manually for the timebeing.
